**Subject:** [External] DEC-DEP Intercompany Transfer of Assets, Order No. 2019-377

Joseph and Jocelyn,

We recently filed an application to transfer rotatable fleet spare components between Duke Energy Progress and Duke Energy Carolinas in Docket No. 2019-163-E. After we filed, I realized that the application mistakenly referred to DEC in some places where it should have referred to DEP, and vice versa. The application also reflected an error in the net book value calculation, lowering that amount from \$4,514,619 to \$4,298,361. We filed a letter on Monday, May 20<sup>th</sup>, pointing out these errors and including a redlined application showing corrections. Yesterday the Commission approved our request, but the directive and motion appear to have been based on the Companies' original application (see attached). I am emailing to request that these discrepancies be corrected either through a standing hearing officer directive, an amended Commission directive-order, or through such other means as the Commission deems appropriate.

I understand that you and the Commission are busy enough without things like this, and I apologize the errors and extra work. As expressed in our letter filed this past Monday, we appreciate the Commission having acted quickly on the transfer request in light of pre-outage work to be performed in June. Thank you for your consideration of this request.

Kind regards,  
 Sam
